

Russell B. Rainey, DMD

“We take time to listen,
to partner with our patients
and design a personal
dental plan.”

SERVICES PROVIDED: Our services include natural, radiant smile makeovers, veneers, teeth whitening, implants, relief of neuromuscular migraines, neck and shoulder pain, and full mouth reconstruction.

AREA OF EXPERTISE: Natural, radiant, alive Aesthetics, Neuromuscular Dentistry to relieve jaw and neck pain migraine headaches and detailed, comprehensive, compassionate care for seniors.

WHY DID YOU CHOOSE YOUR PROFESSION? My grandfather was a doctor and my godfather was a dentist. Both practiced here in Tallahassee. All my life I wanted to be in a healing profession, use my artistic ability and, most importantly, make a difference in the lives of others. Dentistry was the perfect fit.

PRACTICE PHILOSOPHY: We take time to listen to our patients' concerns and desires. Understanding our patients and then paying attention to the details of their care is essential.

RECENT EXPANSION: Two years ago, we renovated and restored an historic home in Midtown Tallahassee and Dr. Debra Gandy joined our team. Now, in order to spend more

time and attention on the details of each person's care, we actually choose to see fewer patients each day.

SECRET OF PROFESSIONAL SUCCESS: Our entire team has an unwavering commitment to advanced dental care. We hold high standards for clinical care while focusing on compassion and understanding of each person's unique needs.

NEW TECHNOLOGY: Extra-oral and intra-oral digital cameras enable the patient to see what the dental team sees. Comfortable neuromuscular therapy relieves pain. Computerized jaw, muscle and bite tracking technology allows for neuromuscular treatment of migraines and severe neck and shoulder pain. In every treatment room, computer education models and oral hygiene demonstrations are available for patients to view.

QUOTE: “Our entire team's mission is to be a God-centered dental team who is compassionately committed to changing smiles and lives.”
